

GLOBAL EQUITIES FUND (UNHEDGED)

FUND STRATEGY

The Fund will invest in global equities where we identify a compelling value proposition through the application of our VoF investment process. We focus on stocks with management that display proprietorial behaviours such as family and founder-linked companies, owner-operator business models or focused teams charged with driving change. The Fund may differ significantly from the benchmark, will generally hold 30-50 stocks and be fully invested. The Fund may invest in stocks of any size however investments will typically be in medium or larger-sized companies (US\$5-75bn market capitalisation).
