THE ENDEAVOUR FUND PROPOSITION

Overview

The Endeavour Fund invests in a portfolio **global listed small companies**.

Our objective is to **compound capital at attractive rates** of return over the period of decade.

Our Approach

Long Term: we focus on industrial, not financial time horizons; we see volatility as inherent in capital markets, as a source of opportunity, not something to be avoided.

Concentrated: we hold circa 15 deeply researched, diversified investments.

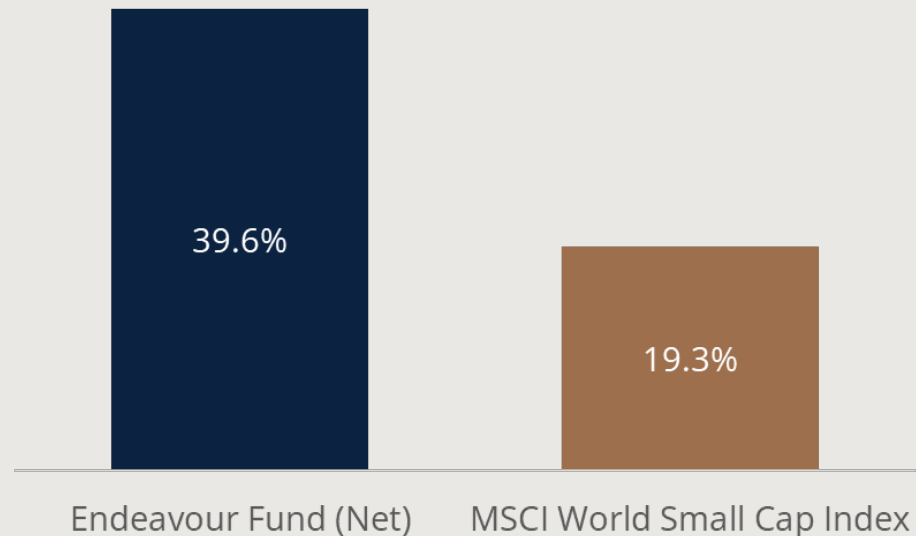

Specialisation: we invest in only five business models in which we have developed significant expertise.

Capital Preservation: we apply an absolute return mindset; focus on downside; seek to invest counter-cyclically; and hold cash in the absence of compelling opportunities.

Our process is designed to invest like a long-term owner.

LONG-TERM HORIZON

We adopt an industrial, not a financial time horizon.

- We take a long-term view to our investments with a time scale relevant for management to execute their strategy.
- But we are *not* indifferent to short-term management execution - this is critical to retain our capital.
- We believe this posture exposes us to unique opportunities, that short-term investors miss.

SPECIALISATION

We are specialist investors, driving excess returns through focus.

- Concentrated Portfolio: circa 15 investments allows for deep due diligence and engagement.
- Business Model Specialists: we invest in a select number of business models.
- Core Geographies: we invest in select geographies where we have been investing and building relationships for over a decade.

OPERATIONALLY FOCUSED DUE DILIGENCE

Capability and execution focused.

- Extensive initial due diligence.
- Focus on operational execution and the achievement of incremental milestones.
- Our process is talent centric, seeking to identify the next generation of business leaders.
- Develop close relationships with founders and management teams, able to provide advice and guidance (where appropriate).

“ To exert everything: to stretch mind and body out towards a goal that was only just within reach

— Endeavour: The Ship and Attitude that Changed the World, Peter Moore

This Enlightenment Era sentiment describing what it is “to endeavour” sums up the attitude we look for when selecting management teams and what we expect from ourselves.
